

Our Ref: RIS-2770-RST

Date 25/10/2022

Dear Stakeholder

Consultation on the 60-month review of RIS-2770-RST issue one - Movement of Continental Wagons on the GB Network

The Rolling Stock Standards Committee has considered the case for change to revise RIS-2770-RST issue 1 and they would welcome your comments on this change.

RIS-2770-RST was intended to support railway undertakings (RUs) when operating wagons registered outside of GB on the GB mainline, whether through supporting RUs that are less familiar with operating practices and technical requirements in GB or through supporting RUs involved in the operation of wagons that may be technically different to domestic wagons that the RU is more familiar with.

We would like to have your comments and have provided a consultation form for you to use. Our consultation closes on **22 Nov 2022**, we may be able to respond to comments received after that date.

Your comments and personal information (name, job title and organisation) will be circulated to Standards Committees and other interested parties in the rail industry to assist any informed responses to your comments. All consultation comments and your personal information will be published on RSSB's website (www.consultation.rssb.co.uk) unless you ask us not to publish your personal information.

I look forward to hearing from you and thank you for your time.

Yours faithfully

Cristina Musat
Project Manager
