10 October 2024

Dear Stakeholder

Information on consultation carried out by Control, Command and Signalling Standards Committee

Consultation on the revision of GEGN8646 issue 1.1 Guidance on the Common Safety Method for Risk Evaluation and Assessment

The control, command and signalling Standards Committee has undertaken consultation with committee members on **19 September 2024** and approved the revision of GEGN8648. The document will be published on **07 December 2024**.

This change has been made to provide the latest reference to and extracts from post EU exit legislative framework, however no material changes to guidance have been made. Changes have also been made to enhance the guidance by providing clarification and including editorial changes to align with RSSB's document style guide.

The revised document is available for you to review.

The business case for change and the briefing note have more detailed information about this change but please contact me if you wish to discuss this change by **24 October 2024**.

Yours faithfully

Consultations Manager
